ELEANOR ROOSEVELT COLLEGE (ERC)

The ERC neighborhood is organized around a series of large outdoor spaces, terraces, and promenades, allowing guests to enjoy San Diego’s temperate climate. Facilities are named after various global regions, consisting of five residence hall suites and six apartment complexes bordering a community Green and Café Ventanas. Laundry facilities, study and meeting rooms, and the International House are all conveniently located in the ERC neighborhood. RIMAC campus recreation facility, Torrey Pines State Beach/Natural Reserve and Torrey Pines Glider Port & Golf Course are just a short walk away.

ACCOMMODATIONS

The residence halls are made up of 4-story buildings which surround the Green. A mixture of single and triple occupancy rooms, the suites can house up to 16 guests, each of which has its own kitchen and living area with a west-facing terrace. The apartments, in suites of 4 guests, include sizeable kitchens and living rooms; the lower levels with sunken gardens and upper levels with terraces. Housing units typically face onto public plazas and courtyards to encourage interaction between residents, and create a sense of community within the campus.

AMENITIES

Bi-weekly cleaning of common areas, easy access to laundry facilities, and Wi-Fi are available in all residential areas. Option for Triton Blue and Triton Gold housekeeping services.

MEETING SPACES

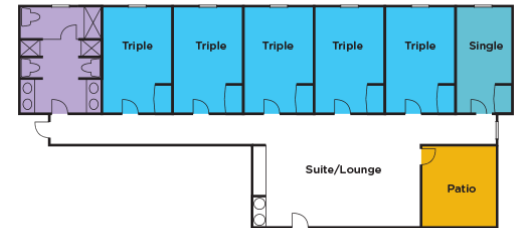

The award-winning International House Great Hall and Asante Rooms are two of San Diego’s premier meeting spaces for events of all sizes and occasions. With its stunning architecture, the Great Hall connects with two open air patios offering spectacular ocean views. The Asante Rooms are smaller, versatile facilities that are perfect for hosting intimate classes, conferences, and meetings. They serve exceptionally well both as stand-alone venues and as break-out rooms for events that require additional space outside of the Great Hall.

DINING

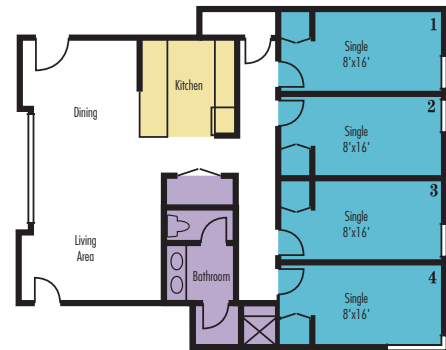

Café Ventanas, offering an all-you-care-to eat menu, features breathtaking architectural design, including 30-foot glass walls, open natural wood beam ceilings, and a large outdoor dining patio and amphitheater.
